

THE DAILY Honolulu Press

Will be for sale Daily at the Following Places:

J. M. OAT & Co., Merchant street
J. G. THURM, Fort street
CRYSTAL SODA WORKS, Hotel street
Five Cents per Copy.

LOCAL NEWS.

Judge Widemann went to Waianae by the steamer Planter yesterday afternoon.

Tree-trimming is greatly needed again on some of the principal streets of Honolulu.

Prisoners are at work fixing the roads in the vicinity of the Pacific Navigation Co.'s store-house.

Neither the Australia or the City of Sydney have been telephoned up to the time we go to press.

The authorities ought to take measures to stop the custom of citizens and others hitching horses across sidewalks.

Captain Marchant left Hawaii by the steamer W. G. Hall yesterday afternoon. He goes for a short trip for his health.

A small native child was almost run over by a hack on Emma street, near Beretania street, yesterday morning about ten o'clock.

Willie Lucas has accepted the challenge issued by J. Spencer, for a one-mile skating race to take place at the Central Park rink on next Saturday night.

A new public bath-house is being built on the water-land between the Marine Railway and the Myrtle boat-house, which will be finished in about six weeks.

Two Chinamen enjoyed the pleasure of pulling each other's queues on Nuuanu street yesterday afternoon. The cause of the trouble was a native woman.

The Government organ declares that Alakea street is in a bad condition. That's nothing; every street in town is in the same fix, and everybody but the official, who is paid for doing nothing, knows it.

The Hawaiian Lodge, No. 21, met night before last, at which time the report of the Trustees was read and referred to a committee. At the same meeting the entire Board of Trustees were re-elected for the ensuing year.

Mr. S. Roth, the tailor, will shortly move his place of business to the store, next to Hollister & Co., on Fort street. The store which he at present occupies will be occupied after his removal by Messrs. Spear & Pfeiffer, the jewelers.

The public are notified that the Road Supervisor will take it as a favor if citizens will send him written word or otherwise of streets and localities needing repairs. This course is taken to insure attention, as needed repairs might otherwise be neglected.

At about half-past nine o'clock last night the steamer horn was blown around town, and large crowds started for the wharf, to await the arrival of the steamer. About an hour afterwards it was reported as the steamer Kilauea Hou instead of either the Australia or City of Sydney. Then could be seen men going home (or to take a drink), with very long faces on them.

Mr. George Engelhardt, the successor of Mr. Samuel Nott, has lately opened a store in Beaver Block, on Fort street. Mr. Engelhardt carries a large and well-selected stock of stoves, chandeliers, lamps, crockery, glassware, and all kinds of house-furnishing hardware. If you are in need of anything, from a tin cup to one of Hall's fire-proof safes, call on Mr. Engelhardt.

As policeman No. 1 was standing on the corner of Nuuanu and Queen streets yesterday morning at half-past twelve o'clock, he heard groans in the direction of the Honolulu Iron Works. On going over he saw the night watchman of the foundry, a native named Maikaloa, who asked him to squeeze him, as he felt some pain in his back. The policeman had no sooner taken hold of the man than he turned around and said, "this is my last," and immediately expired.

The Hawaiian Colonization Land and Trust Company has opened a large business office in Campbell's Block, on Merchant street, where they are now prepared to transact general business connected with the colonization scheme. The new offices of the company were opened yesterday. Before the desks were placed upon the floor a sale of shares in the new company, amounting to \$2,000, was made to an outside party. The company will place a limited number of shares of stock upon the market here, but the bulk, it is understood, will be placed abroad.

The union religious meetings yesterday showed an increased attendance and interest. Rev. A. O. Forbes led the meeting in the Bethel at 11 o'clock A. M., pressing forcibly upon Christians the need of confession of sinfulness and humiliation before God. In the evening Rev. E. C. Ogil preached a pointed sermon upon "Receiving and Refecting Christ" to a large audience, which filled the Fort-street Church vestry. The morning meeting to-day will be led by Rev. Hiram Bingham; theme, "Home and Foreign Missions." The evening meeting at Fort-street Church will be led by the Pastor; subject: "Sowing and Reaping." Extra

seats will be provided, and the ladies' parlor will be added to the vestry, so that all who attend may be certain of good seats. All are invited.

Last night, when passing Hollister & Co.'s store, on Fort street, our attention was attracted by a glittering array of inverted tumblers separately revolving on silver-plated uprights, set in rotary motion by jets of water issuing from concealed orifices supplied from a fountain. By this ingenious arrangement the glasses are kept perfectly clean and cool, without trouble or coming in contact with any hand, which affords an additional inducement to enter the store and try a glass of Messrs. Hollister & Co.'s delicious soda water, ginger ale, cream soda or lemonade, now so well known and celebrated as to require no praise. In fact, every kind of aerated waters, medicinal or otherwise, in their best combinations and purity, as well as the syrups used in such manufacture, are prepared by this old-established firm, who have justly earned the good reputation they now enjoy.

A runaway occurred yesterday morning on Nuuanu street, in which a dog, a horse and a man were mainly interested. The row was started by the man jumping out of his hack to whip a "dorg" from under his vehicle. It was a yellow "dorg," and immediately sulked, as yellow "dorgs" always do. The man was smiling when he commenced, but after chasing the "dorg" among the wheels and under the horse for ten minutes, he became very mad, as men who chase "dorgs" are apt to become. At last the mad man succeeded in hitting the yellow "dorg" with his long whip, and then the fun commenced. The "dorg" yelped and ran between the horse's legs, when the mad man struck at him again and hit the horse; then the horse ran, the "dorg" ran, and the mad man ran after his horse, which he did not catch. When the mad man got his horse and the wreck of his hack back he sat sadly down, and estimated that his fun with the yellow "dorg" had cost just \$36. No moral!

They say that two of the Government candidates made political speeches at that Molokai Sunday School Convention; that the Colonization scheme is taking practical working shape; that the policemen are still doing duty over two empty safes; that the Government organ doesn't intend to fulfill its threat to publish some naughty things about former Administrations; that the political vote taken at the Sunday School Convention ought to be a caution to the gentle organ to "hush-a-by;" that the greatest man of his time is H. R. N.; that the Palace Sunday School class will be taken away from the present Superintendent—if he doesn't reform; that the people who can see no good in the year just closed are either not good themselves or are chronic growlers; that the report that the Road Supervisor was injured by falling into a rut in the road is unfortunately unfounded; that the best place to get fits is at Kerr's; that the old prophesy about leprosy breaking out here is about to be verified; that the high hats coming into fashion will obstruct the view in theaters almost as bad as the veritable "cartwheel hat" of unpleasant memory; that the *lei* makers view with each other in trying to reach the middle of the streets with their toes; that the policeman who got out of a lady's way on Fort street yesterday ought to be rewarded by a pension now and a monument after his death; that every policeman in town declares he was awake at the time of the Post Office robbery; that such a state of affairs is very surprising to many; that the men who remember other's sins and forget their own have the most to say; that the people who live on the by-estreets intend presenting a petition for the removal of two of the street officers—heads of the job, in fact; that the piles of rubbish raked together eight weeks ago in certain streets are still lying where they were left; that proof of these things will be furnished the "busses," if they will call at the Press office; that it would pay these officials to act half way decent—at least until after election; that the picnic season is at hand; that Love's young dream is not altogether a fancy over at Hilo; and that the merit of lying is only known to the initiated—call at the Government building!

Honolulu Rifles.

At a meeting of the Honolulu Rifles, held at the Armory last evening, about thirty members were present. After the regular routine of business, the following officers and committees were elected for the ensuing year: Geo. McLeod, Captain; H. F. Hebbard, First Lieutenant; Wm. Unger, Second Lieutenant; John H. Reist, Recording Secretary; E. L. Winter, Financial Secretary; E. F. Bishop, Treasurer. Finance Committee—J. H. Reist, G. K. Wilder, Wm. Wagoner. Armory Committee—W. F. Williams, Wm. Wagoner, J. L. Torbert. Range Committee—W. Unger, J. W. Pratt, J. L. Torbert. Recruiting Committee—Wm. Unger, F. Wood, B. Burgess. Captain McLeod, Treasurer Bishop and Lieutenants Hebbard and Unger then made speeches, which were loudly applauded by their well-wishing comrades.

Free Bono Public.

One of the most attractive displays of elegant holiday goods in Honolulu is made by Messrs. King Bros., No. 87 Hotel street. Their assortment of Birthday, Christmas and New Year's cards, of Prang's and other makes, is exquisite in design and finish, and are offered at extremely low rates. An inspection of their picture gallery will well repay the visitor,

while artists can here find a choice selection of artists' materials. In the windows of King Bros. are also a fine collection of Clarke's fern cards, Island curios, etc., and some beautiful shells, painted in native scenes by Mrs. Thomas J. King, which are valuable mementos to send abroad.

NOTES.

The barkentine W. H. Diamond sails for San Francisco to-morrow.
Some of the sailors on the Norwegian bark Lovspring are sick with scurvy.
The steamer Mokoli arrived early yesterday morning, bringing 120 bags sugar, 17 green hides and 1 horse.
The steamer Planter goes to Waianae and Kapaia this trip. She will land some machinery at the latter place.
The tern W. S. Bowne was moved to the Esplanade yesterday morning, where she will discharge the balance of her cargo.
The bark C. R. Bishop was again moved out into the stream yesterday afternoon, to make room for the P. M. S. S. steamers.
The steamer St. Paul is due here from San Francisco on or about January 9th. She will sail again for San Francisco on or about January 15th.
Last evening, as the steamer James I. Dowsett was leaving her wharf, she backed into a boat lying alongside the barkentine Amelia, and badly damaged it.

The Norwegian bark Lovspring arrived yesterday afternoon, 179 days from New York. She reports having fine weather most of the way, except when rounding Cape Horn, where she experienced some heavy gales. She sighted several vessels off the Horn, but spoke none of them. She is consigned to Castle & Cooke, and is docked at the Old Custom-house wharf.

The Latest American Invention.
THE VICTORY OF ELECTRICITY.

Since Electricity has been applied for lighting purposes, all efforts of inventors have been directed to construct a lamp for general domestic use. The reason why this problem has till now not been solved, is that none of the inventors could rid themselves of the idea of gas lighting, and that all have adhered to the system of producing the Electricity in some central place, or by large machinery, instead of first laying down the principle that a Lamp which should ever become generally useful and popular, must be portable, like an Oil Lamp, and contain the generator of Electricity in itself, i. e., in the foot of the Lamp.
The Norman Electric Light Company has at last succeeded in completely realizing this ideal of Electric Lighting, and there is no doubt that this most important invention will bring about a complete revolution in all branches of lighting.
Our Electric Lamp needs neither Machinery, Conductors, nor any expensive outlay, and is neither complicated nor disagreeable in manipulation; all that is necessary is to refill it every four or five days with acid. The cost of lighting will be as cheap as gas (34 cents per hour), and it has before the latter the immense advantage of neither producing heat, smoke nor carbonic acid, owing to which the air is not impured, and remains at the same degree of temperature. It is further absolutely inodorous, and does not need to be kindled by match, or otherwise, but simply by turning the key, thus avoiding all danger of fire, explosion or suffocation, as in the case of gas, if the key is left open; and it must be conceded that this advantage alone is invaluable. It is further preferable to any known kind of lighting for the following reasons:
(1.) Its manipulation is so simple that any child can keep it in order.
(2.) That the Lamp is portable, and can be removed like any Oil Lamp, from one place to another.
(3.) That it neither requires the disagreeable fixing of the wick, or the cleaning of the cylinder, as in the case of Oil Lamps.
(4.) That the light produced is a soft and most steady one; that it never flickers, and the flame, though being equal in power of lighting to gas, can be regulated to any degree.
(5.) That every danger of fire is absolutely excluded, as the light will extinguish immediately, if by any accident the glass surrounding the burner should be broken.
(6.) That it will burn, even in the strongest wind, completely unaffected, thus being invaluable for illuminations, lighting of gardens, corridors, etc.
This Lamp is constructed for the present in three different sizes:
A, small size. Height of complete Lamp, 14 inches; weight, about 5 pounds; for lighting rooms, cellars, storage houses, powder magazines (or similar places where explosives are kept), coaches, illuminations, gardens, mines, or other industrial purpose. Price, \$24.00 per lamp, delivered free to any part of the world.
B, medium size. Serves all domestic purposes for lighting rooms, houses, etc. This Lamp is elegantly decorated, and has removable white Ground Glass Globe. Price, per Lamp (including sufficient quantity of chemicals, and extra burner for size A, and two for sizes B and C). The necessary chemicals are purchased in any drug store, in even the remotest village.
Ever's Lamp is accompanied by a written guarantee for one year, and will be exchanged or money refunded, if the same should not give complete satisfaction.
On all orders for six Lamps and above, a discount of six per cent. will be allowed. No orders from abroad, filled, unless accompanied by a remittance to cover the amount, or first class reference on a New York or Philadelphia house.
The best method of sending money is by draft on New York, which can be procured by any banker, and everywhere, or enclose the amount in bank notes, gold coin, or postage stamps of any country of the world.
All orders, the smallest as well as the most important, will receive the same particular attention, and will be forwarded without delay.
Our Electric Lamps are protected by law, and all imitations and infringements will be prosecuted.
Agents, Salesmen on Commission, and Consignees for our Lamps, wanted everywhere. No special knowledge or capital required.
A fortune to be made by active persons.

Address: The Norman Electric Light Co.,
PHILADELPHIA, U. S. of America.
